Our Principal -- Mr. Boyce

Recently I was reading from a book entitled "Great Thoughts of Great Americans". I would like to pass on to each of you one of these thoughts taken from a speech given by Daniel Webster in the year 1830:

"If, almost on the day of their landings, our ancestors founded school and endowed colleges, what obligations do not rest upon us, living under circumstances so much more favorable both for providing and for using the means of education?"

Success and happiness to those of you who are graduating and to the students who remain to carry on the traditions of Pine Grove.

To the electronic brain,

Good luck with

Student Body Officers

President

I feel very privileged to have acted as Student Body President this past year. I know all of the students of Pine Grove will long remember the experiences we have had here. Pine Grove with its excellent facilities and dedicated instructors provides us a fine environment for intellectual and physical growth. It is my hope that we have made the best use of our opportunities.

I would like to thank Mr. Boyce, the faculty, and the whole administration for helping to make this year such a great success. It was a team effort and everyone's co-operation enabled us to take enormous strides in student government and participation in student activities.
